Bowling Green State University

April 19, 1982

On campus, in community

Ruth Olscamp anticipates playing active role

Ruth Olscamp is someone you don't soon forget. She is a vibrant person whom others genuinely like; she is a speech pathologist with a highly credible record and she is an active participant in academic and civic affairs.

As both an individual and the wife of Dr. Paul J. Olscamp she has made a positive impact in Bellingham, Wash., and she is looking forward to settling into the Bowling Green community.

She wants to teach and to learn here and she is especially eager to begin meeting people and participating in campus and community events.

Olscamp, 34, prefers to think of herself as a person who choose speech pathology as a career and just happens to be married to a university president. She is confident that she will have no trouble combining the two roles and believes that by just being herself she will be best serving the interests of all with whom she must live and work.

"I enjoy tremendously the responsibilities that accompany being a president's wife, such as meeting people, entertaining and participating in events on campus," she said.

Noting some apprehensions about going anywhere as "someone's wife," she indicated that doing so is an entirely new experience for her since her previous moves have been entirely career oriented.

"When we interviewed with the Board of Trustees for the position I specifically asked if the University community had any expectations of the president's wife and I was told that there really were none," she said, adding that she will work at establishing herself in the community as she begins to know the University and its people better. She said she has no problem living "in the public eye" and has become accustomed to such visibility during her three and a-half year marriage to a university president.

As a professional, Olscamp wants very much to continue her career. At Western Washington she is clinic coordinator in the speech pathology

program and she is eager to find a position in the Bowling Green area, preferably at the University, where she will have the same kinds of responsibilities—teaching, administering therapy and supervising students.

Confident of her ability, she does not like being "shoved onto people as the president's wife" because that is not her only qualification. She is quite honest about discussing the "package deal" that brought both her and her husband to Bowling Green.

"We would have refused the opportunity if I had not been guaranteed employment," she said, pointing out that in today's society it is not unusual for university presidents to have a spouse who works in a professional field and when the subject of work comes up, it is also not unusual to consider both careers.

The decision of her husband to accept the presidency at Bowling Green was especially traumatic for her because, she said, "I liked my job and I liked living where I did." But both Olscamp and her husband were drawn to the University by its academic reputation, its overall size and the opportunities for personal and professional involvement.

She finds it "ironic" that she will be returning to Ohio, her native state. A graduate of Heidelberg College in Tiffin, she received a master's degree from Ohio University and took her first job in Chillicothe as director of the speech and hearing center there.

The Olscamps are a pair in more than their professional lives, however. "After hours" they both sing and act and they enjoy spectator sports. They are exercise enthusiasts who enjoy running and cycling, as well as sailing, which they will miss when they leave the West coast.

Olscamp, who likes to cook when time permits, said she is especially impressed with the Student Recreation Center and the Moore Musical Arts Center, where she hopes to find the time to study voice. She also considers the three galleries on campus as a definite plus for the institution, adding that she plans to

become involved in the arts both on campus and in the northwest Ohio area.

She views it as especially important to make both personal and professional friends external to the University and wants to continue as a public speaker on communication disorders, an activity which has

enabled her to meet many different kinds of people in her current position.

Olscamp plans to join her husband on campus by mid-September, after concluding her teaching assignments at Western Washington and returning from a previously arranged sailing expedition across the Pacific Ocean.

Map library acquires plates for early Bowling Green map

A set of three engraved copperplates used to print one of the earliest maps of the city of Bowling Green and the surrounding area has been added to the collection in the University's map library.

Evron Collins, map librarian, requested the plates from the United States Geological Survey, a division of the Department of the Interior, which has placed the set on permanent loan to the University Library. A copy of the map printed from those plates also has been added to the Library collection.

According to information supplied to Collins by the Geological Survey, the Bowling Green quadrangle was surveyed in 1901, and the map plates were made that same year. About 1,100 copies of the original three-color map were printed in 1903, when the price of a topographic map was about five cents per copy.

The Bowling Green map, which

clearly shows the early lay-out of the city, was one of a series of U.S. Geological Survey maps made by copperplate engravers during a 50-year period beginning in 1980. The maps were printed in three colors: black, brown and blue. The lettering and man-made features on the early maps are in black, the contour lines in brown and the water features in blue. One plate was engraved for each of the three colors.

Collins said the plates and printed map eventually will be displayed in a glass case in the map library where they will be protected from fingermark marring and tarnishing.

The Geological Survey has forwarded to Collins a complete set of instructions for care of the copperplates, which had been stored in Washington. Collins said she became aware of the availability of the plates while attending a library conference in Minnesota last fall.

Tree transplanting gift of Napoleon nursery

There's nothing "shady" about a tree planting deal that has been arranged between the University and Franz Nursery in Napoleon.

As soon as weather permits, the nursery will be on campus to transplant 29 young sycamore trees from a lot near the physical plant to Merry Street, near the Student Recreation Center.

George Postich, vice president for operations, said the entire project is being done at no cost to the University. The trees were purchased

as saplings four years ago for "next to nothing," Postich said, and the labor for transplanting, estimated to cost \$600-800, is being donated by Franz Nursery.

The University grounds crew will be assisting with the project but could not complete the entire job because it does not have all the necessary equipment.

The transplanting is expected to begin in the next few weeks when the ground is dry and the locations for the trees have been staked.

Board of Trustees

The appointment of Dr. Paul J. Olscamp as Bowling Green's eighth president was confirmed by the Board of Trustees at a meeting April 9.

At the same time, Board President Frazier Reams Jr. discharged the Presidential Search and Screening Committee, thanking the members of that committee and paying special tribute to Patricia Gangwer and June Shrider, secretaries during the search process, and Richard Edwards, executive vice president, for his efforts in the administrative transition.

The board also was presented with five resolutions—two from the faculty and three from the Undergraduate Student Government—congratulating Olscamp on his selection, commending Interim President Ferrari for his leadership, and expressing dissatisfaction and concern with the procedures used in the selection of the new president and the resulting erosion of mutual trust between members of the board and the University community.

Members of the board "heartily endorsed" the resolutions commending Ferrari and Olscamp.

Speaking on the conflict that arose over the presidential selection process, Reams said, "I feel very strongly about the faculty's right to express itself . . . The board is very well aware of the fact that there are probably better ways to achieve a given end. . . We will take all these things into consideration."

Several board members expressed their appreciation to the members of the community who expressed written opinions on the selection procedure.

J. Warren Hall, Cleveland, noted that the faculty call for reestablishment of a spirit of openness between the board and the University community reflects his view of how the University should operate, adding, "This is the way the board intends to run."

Hall said "trustees do not walk on water. We can learn from the experiences of the past month or so."

The next meeting will be at 10 a.m. Friday, May 14, in the McFall Center Assembly Room.

Members of the Personnel Steering Committee met with Dr. Paul J. Olscamp during his visit to campus a week ago, sharing the concerns of the classified staff which they hope the new president will address. Among the topics discussed were staff representation on University governance boards and communication among the various segments of the institution.

Alger Hiss plans three-day campus visit

Alger Hiss, whose espionage and perjury case in 1948 vaulted former President Richard Nixon into national prominence and sent the former state department officer to prison, will be on campus May 11-13 to deliver a major speech and participate in a series of seminars.

Hiss, whom supporters maintain was a victim of anti-communist hysteria that swept post-World War II America, will discuss "McCarthyism and the McCarthy Era" during an 8 p.m. public lecture on Wednesday, May 12, in Kobacker Hall of the Moore Musical Arts Center.

Hiss had fashioned a successful career in the state department and as a diplomat when in 1948, during hearings before the House Un-American Activities Committee, he was accused of having passed state department secrets to the Soviet Union. Hiss' confrontations with the committee and his accuser, Whittaker Chambers, a senior editor at Time Magazine, became the top news story in the country during the late 1940s and early 1950s.

Because the statute of limitations had run its course, Hiss could not be indicted on espionage charges but he was brought to trial for perjury in 1949. The trial resulted in a hung jury

and the government retried him in 1950, this time gaining a conviction.

After an unsuccessful appeal to the United States Supreme Court, Hiss was sentenced to five years in prison. He was released in 1954 after serving 44 months.

That his appeal was turned down by the Supreme Court was ironic because he had begun his career as a secretary to Supreme Court Justice Oliver Wendell Holmes. In 1933, he went to Washington as part of President Roosevelt's New Deal and was the assistant general counsel of the Agricultural Adjustment Administration.

Hiss later took a series of positions in the state department and in 1944 was secretary of the Dumbarton Oaks Conversations, where the outline for the United Nations was prepared. He was a member of the delegation that in 1945 accompanied President

Roosevelt to the Yalta Conference.

Hiss' appearance at Bowling Green will be preceded by the showing of the film "The Trials of Alger Hiss" at 7:30 p.m. Wednesday, May 5, in 210 Mathematical Sciences Building.

On Tuesday, May 11, Hiss will take part in a seminar entitled "Alger Hiss: A Press Perspective" to be held at 2:30 p.m. in 515 Life Sciences Building.

The panel will be moderated by Emil Dansker, journalism, and panelists will include Scott Aiken, former newsman with the Cincinnati Enquirer, now on the public relations staff of Armco Steel; Edward Whipple of the Toledo Blade, and Dennis Hale, journalism.

On Wednesday, May 12, Hiss will take part in a panel discussion entitled "Yalta and Anti-Communism" at 10 a.m. in the Campus Room of the University Union.

Meetings to detail University's new sexual harassment policy

Sexual harassment—what is it and what is the University's official position on it?

Those two questions will be examined in detail at three information sessions sponsored by the University's Equal Opportunity Committee.

Scheduled at varying times and in various locations to enable the largest possible segment of the University community to attend, the three sessions will be designed to acquaint faculty, contract and classified staff, and students both with Bowling Green's "Sexual Harassment Policy" approved by the Board of Trustees last October and with methods of dealing with harassment in the work environment.

The workshop will be offered from 3-4 p.m. Monday, April 26, in the McFall Center Assembly Room; from 9-10 a.m. Wednesday, April 28, in Room 105 A,B,C,D of the School of Technology, and from 1-2 p.m. Tuesday, May 4, in the Alumni Room of the University Union.

Members of the Equal Opportunity Committee and administrative staff from the Office of Equal Opportunity Compliance and Handicapped Services will lead the sessions.

Suzanne Crawford, acting director of equal opportunity compliance, said the meetings will include a general discussion of the University policy, a showing of the film, "Workplace Hustle," and a general response time, during which participants will be told how to identify instances of sexual harassment and how to file a complaint.

The University's sexual harassment policy defines harassment as "Unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature when:

—submission to such conduct is made either explicitly or implicitly a term or condition of an individual's employment or academic pursuits; —submission to or rejection of

such conduct by an individual is used as the basis for employment or academic decisions affecting such individual, or

—such conduct has the purpose or effect of unreasonably interfering with an individual's employment or academic performance or creating an intimidating, hostile or offensive working or educational environment."

The policy, which was drafted by the Office of Equal Opportunity Compliance and approved by the Faculty Senate before its adoption by the trustees, was written in an effort to foster a living/learning/working environment conducive to the highest levels of individual achievement, Crawford said.

Members of the Equal Opportunity Committee who will lead the sessions with Crawford and Jan ScottBey, director of handicapped services, are Robert Beard, health, physical education and recreation; Susan Caldwell, personnel support services; Brenda Hoot, graduate student, home economics; Sally Kilmer, home economics; Gilbert Perez, technical support services; Patricia Remington, ethnic studies; Jennifer Shoub, undergraduate student; Janet Tracy, campus safety and security; Harrender Vasudeva, English; and Sylvia Wintgens, insurance office, chair of the committee.

Monitor

Monitor is published every week for faculty, contract and classified staff of Bowling Green State University. Deadline for submission of materials for the next issue, April 26, is 5 p.m. Tuesday, April 20. Editor: Linda Swaisgood Editorial Assistants: Karen Elder, Sarah Bissland Change of address and other notices should be sent to: Monitor 806 Administration Building Bowling Green State University Bowling Green, Ohio 43403

APPLE day to show core of daily computer activity

Computer Services will host an "APPLE Awareness Show" for faculty, staff and graduate students in two sessions April 27 and 29.

Designed to show how APPLE II+ microcomputers are being used at the University, the show will be presented from 1:15-4:35 p.m. Tuesday, April 27, and repeated from 8:40 a.m. to noon on Thursday, April 29. Both sessions will be in the main lounge of Prout Hall.

Reservations are not required, and participants may come and go as their schedules allow.

Following are the times and presentations scheduled:

Tuesday, April 27, 1982			
TIME	SPEAKER	DEPARTMENT	TOPIC
1:15-1:35 p.m.	Dale Schroeder	Computer Services	Introduction
1:35-1:55	Terrye Gregory	Accounting and MIS	Teaching BASIC to 750 students per quarter using APPLE Lab
1:55-2:15	Steve Herber	Computer Services	Fast BASIC Compiler
2:15-2:25	Break		
2:25-2:45	Ron Stoner	Physics and Astronomy	Using the word processor, APPLE-WRITER, to prepare exams and using VISICALC in grading
2:45-3:05	Al Copper	Computer Science	Using LABSOFT - software to analyze laboratory data
3:05-3:25	Janet Sullivan	Clinical Lab-Education	Using a tutorial to teach BASIC programming
3:25-3:35	Break		
3:35-3:55	Cliff Long	Math	Least squares line fitting and surface plots
3:55-4:15	Steve Gregory	Physics and Astronomy	Animation and Light Pen Usage
4:15-4:35	Bob Fyfe	Computer Services	Creating lessons with COMMON PILOT
Thursday, April 29, 1982			
8:40-9 a.m.	Dale Schroeder	Computer Services	Introduction
9:00-9:20	Terrye Gregory	Accounting and MIS	Teaching BASIC to 750 students per quarter using APPLE Lab Record keeping
9:20-9:40	Tom Hayes	Science and Math Education	
9:40-9:50	Break		
9:50-10:10	Ron Stoner	Physics and Astronomy	Using the word processor, APPLE-WRITER, to prepare exams and using VISICALC in grading
10:10-10:30	Al Copper	Computer Science	Using LABSOFT - software to analyze laboratory data
10:30-10:50	Janet Sullivan	Clinical Lab-Education	Using a tutorial to teach BASIC programming
10:50-11	Break		
11-11:20	Cliff Long	Math	Least squares line fitting and surface plots
11:20-11:40	Steve Gregory	Physics and Astronomy	Animation and Light Pen Usage
11:40-noon	Bob Fyfe	Computer Services	Creating lessons with COMMON PILOT

Faculty and Staff

Grants

Dr. Thomas B. Cobb, graduate college, \$4,500 from the Public Health Service, Dept. of Health and Human Services, to continue a minority high school student research apprentice program. This is the second year Bowling Green has received the award.

Dr. David Groves, health, physical education and recreation, \$715 from the Tennessee Valley Authority to fund an 11-week student internship at Land Between the Lakes, Golden Pond, Ky.

Dr. John T. Rotenberry, biological sciences, \$9,603 from the University of

New Mexico, subcontracted from the National Science Foundation, to study plant chemistry, shrub-associated arthropod faunas, and bird breeding biology and foraging behavior during the May-August field season.

Recognitions

Ron Bandy, art, was awarded third place for his painting "The Good Book," at the 47th annual Regional Artists Exhibition March 19 at the Fort Wayne Museum of Art.

Dr. Ramona Cormier, associate provost and assistant to the president, was one of three northwest Ohio women presented Women of Achievement awards by the Toledo chapter of Women in Communications, Inc., at the professional organization's annual spring seminar held Saturday, April 17, at the Perrysburg Holiday Inn.

The awards program, begun in 1980, honors women who, by their personal efforts and achievements, have served as a catalyst for change to further the progress of women.

Dr. Paul Makara, music performance studies, has been named interim concertmaster of the Toledo Symphony Orchestra until auditions for the position are held this summer.

Makara was concertmaster of the orchestra from 1958-1966 with the exception of the 1962-63 season.

Adrian R. Tio, art, has been elected editor of FATE newsletter, a publication of Foundations in Art Theory and Education.

Dr. David Ostroff, speech communication, had his paper, "The People Vote No on New Tech: Subscription Television, Inc. and the California Anti-Pay Campaign of 1964," selected as the first-place submission in the history division of the Broadcast Education Association annual convention April 2-5 in Dallas.

Jerry L. Richardson, placement services, was elected vice president of the Great Lakes Association for School, College and University Staffing at a conference in March.

Dr. Maurice J. Sevigny, art, has been selected the University of Iowa's 1982 Visiting Art Research Scholar for April 21-24 when he will give a presentation on studio art instruction and non-verbal interaction behavior and conduct a seminar on "Triangulated Inquiry" and participant observation methodology. He also will work as a consultant with doctoral students and faculty.

Dr. Raymond K. Tucker, speech communication, was named a visiting professor at Ohio University's College of Communication for the week of April 12.

Publications

Dr. James Bissland, journalism, "The Toledo Study of Attitudes Toward Mental Illness: A Q-Methodological Approach," a chapter in "Communication Yearbook V," an annual review published by the International Communication Association.

The chapter is based on a research report which was selected as one of the "top three" papers presented in health communication at ICA's annual conference last spring.

Dr. A.B. Blankenship, emeritus, marketing, "Do-It-Yourself Marketing Research," a book co-authored by George Breen, former director of marketing research at the Stanley Works. The book was published this month by McGraw-Hill Book Co.

Dr. Robert Byler, journalism, a review of "Graphic Communication '80s" in the winter 1981 issue of "Journalism Quarterly."

Dr. Patricia Cunningham, home economics, "The Theoretical Bases of William Hogarth's 'Depiction of Dress,'" an article in "Dress," the annual journal of the Costume Society of America, Vol. 7, 1981.

Janet M. Dommer and Dawn McCaghy, library, "Techniques for Conducting Effective Search Interviews with Thesis and Dissertation Candidates," an article in the March issue of "Online," the magazine of online information systems.

Dr. Lawrence Friedman, history and American studies, "Gregarious Saints: Self and Community in American Abolitionism, 1830-1870," a book released in March by Cambridge University Press.

Dr. William B. Jackson, biological sciences, has co-edited a book with Dr. F.J. Baur of Proctor and Gamble Co. The book, "Bird Control in Food Plants-It's a Flying Shame!" is a recording of the proceedings of a symposium on bird behavior and control sponsored by the American Association of Cereal Chemists.

Dr. Laurence J. Jankowski, journalism, "The Future of High School Publications," an article in the winter issue of "Columbia Scholastic Press Association Bulletin," and "The Geology of Hocking Hills Parks," an article in the winter issue of "Ohio Woodlands."

Dr. Briant Hamor Lee, speech communication, "Corrugated Scenery," to be published by Oracle Press.

Dr. Ronald Seavoy, history, "The Origin of the American Business Corporation, 1784-1855," a book published by Greenwood Press.

Presentations

Dr. Bartley Brennan, legal studies, presented a paper, "Reagan Administration Antitrust Policy: Legal and Economic Analysis," at the annual meeting of the Midwest Business Association March 25-26.

Dr. Bruce L. Edwards Jr., English, presented a paper, "Rhetoric, Alchemy and Heuristic Procedures: Some Epistemological Questions," at the conference on College Composition and Communication March 19 in San Francisco.

Dr. Bonita R. Greenberg and Brian Shulman, speech communication, presented a mini-seminar, "Milking the Language Sample: Diagnostic and Therapeutic Considerations" at the Ohio Speech and Hearing Association convention March 26 in Columbus.

'Get a grant' is workshop topic

"How to Get a Grant," a free workshop for faculty, staff and graduate students, will be offered by the Office of Research Services April 23 and May 21.

The two-part workshop will lead participants, step by step, through the process of developing a proposal from original idea through submission and award.

Directed by Marian Ronan, acting director of research services, the April 23 session, to be held from 9 a.m. to noon, will include a fast-paced introduction to the essentials of proposal writing. Free materials on

Dr. Herbert Greenberg and Fred Simmons, speech communication, presented a paper, "Performance of Language-Disordered Children on Time-Altered Speech" at the Ohio Speech and Hearing Association convention March 26 in Columbus.

Dr. Robert Hansen, speech communication, designed scenery for Florida State University's production of Massenet's opera, "Cinderella," presented April 1-4.

Dr. Stephen Hood, Dr. Melvin Hyman, Richard Jacques and Dr. Michael Rastatter, speech communication, presented a paper, "Interspeaker Voice Fundamental Frequency Variability for Spastic Cerebral Palsy Adults," at the Ohio Speech and Hearing Association convention March 26 in Columbus.

Robert Hurlstone and Adrian R. Tio, art, were participants on a panel discussing "Overview: Studio Foundations in Mid-West Regional Schools," at a recent regional conference of Foundations in Art Theory and Education in Kalamazoo, Mich. Tio also was a participant on a panel, "Foundations Approaches in Survey/Lecture Art Courses," at the same conference.

Dr. Mercedes Junquera, romance languages, lectured on "Spanish Professionals in the United States," at a meeting of ALDEEU April 3 in Washington, D.C.

Marilyn Perlmutter, speech communication, presented a paper, "Phonological Processes," at the spring meeting of the Northwest Ohio Speech and Hearing Association March 3 in Perrysburg.

Dr. Michael Rastatter and Brian Schulman, speech communication, presented a paper, "Towards a Theory of Speech Motor Control: Some Evidence from Labial-Laryngeal Relationships," at the Ohio Speech and Hearing Association convention March 26 in Columbus.

Dr. Bernard Sternsher, history, presented a paper, "The New Deal and Political Realignment," at the Missouri Valley History Conference March 12 at the University Nebraska at Omaha.

Chris Ulrich and Dr. Bonita R. Greenberg, speech communication, presented a mini-seminar, "Preliminary Data on the Test of Expressive Language Learning (TELL)" at the Ohio Speech and Hearing Association convention March 27 in Columbus.

Luncheon to honor athlete-scholars

Thirty student athletes will be honored for their excellence in the classroom at the second annual athletic department academic honors luncheon on Wednesday, April 28.

The noon luncheon in the Grand Ballroom of the University Union is being held for Bowling Green athletes who have maintained a grade point average of at least 3.5 on a 4.0 scale throughout their academic careers.

The 30 athletes to be honored represent 14 teams and 22 academic majors, ranging from accounting to microbiology to pre-veterinary medicine.

Reservations for the April 28 luncheon can be made by contacting the athletic department (372-2401).

'How to' sessions planned on fit trail

"How to" sessions on use of the new outdoor fit trail will be given by staff of the Student Recreation Center this week, April 19-23.

Each day from 12:15-1:15 p.m. and 5:15-6:15 p.m. staff will be on hand at the start and finish of the trail to conduct tours of the stations and show how each exercise should be done.

The fit trail was officially opened on April 15.

Direct deposit saves time, \$\$

Ten financial institutions are currently accepting direct payroll deposits from the University.

Employees are encouraged to consider the benefits of the direct deposit program, which eliminates waiting in lines to pick up and deposit checks; the worries of a possible lost or stolen paycheck, and the need to make special arrangements for paydays during periods of illness or vacation.

Employees who authorize direct deposit receive an earnings statement on or before payday either through campus mail or from their immediate supervisor. The money is deposited in the checking account for use at the beginning of each payday.

Direct deposit also saves University dollars through reduced check printing costs, distribution costs, bank charges and bank reconciliation costs.

The 10 institutions currently participating in the University plan are Huntington National Bank; Mid-American National Bank and Trust; Northwest Ohio Bank of Wood County; The Toledo Trust Co.; Farmers Savings Bank; Citizens Savings Bank; Midwest Bank and Trust Co.; First Federal Savings and Loan; Diamond Savings and Loan, and State Home Savings and Loan.

Questions about direct payroll deposit should be phoned to the payroll office (372-2201).

Upcoming grant deadlines

The following list of research grant and fellowship deadlines has been prepared by the Office of Research Services, McFall Center.

Additional information about these grant opportunities and others is available in that office (372-2481).

- 6/1/82— EPA: Environmental Engineering and Pollution Control Processes
- 6/1/82— NEH: Research Resources Program
- 6/1/82— NEH: Fellowships for Independent Study and Research
- 6/1/82— NEH: Fellowships for College Teachers
- 6/1/82— NEA: Music Festivals Program

- 6/1/82— NSF: U.S.-Pakistan Cooperative Science Program
- 6/1/82— NSF: U.S.-India Cooperative Science Program
- 6/1/82— NSF: Industry/University Cooperative Research Centers
- 6/1/82— Kennan Institute for Russian Studies - Senior Fellowships and Visiting Grants
- 6/15/82— Fulbright: Senior Scholar Program (American Republics, Australia, and New Zealand)
- 6/30/82— Metropolitan Life Foundation Nutrition Awards Program

News Review

Reception honors athletic director

A reception honoring Athletic Director Jim Lessig and his wife Margarita will be held in the Ice Arena lounge on Tuesday, April 27, from 7-9 p.m.

Lessig, who has been the University athletic director the last three and a-half years and worked in the alumni office for seven years prior to his athletics appointment, will become athletic director at the University of Kansas on May 1.

The reception, which is being hosted by the Falcon Club and the athletic department, is open to the public. Reservations are not required.

Blood pressure screening set

Blue Cross of Northwest Ohio will conduct a blood pressure screening program for all University employees on Wednesday and Thursday (April 21 and 22). The program is being sponsored by the Personnel Steering Committee and Personnel Support Services.

Registered nurses will be available each day at four screening sites: 9

a.m. to 4:30 p.m., Browsing Room, Union; 9 a.m. to noon, Physical Plant Conference Room; 9 a.m. to 4:30 p.m., Harshman Dining Hall, Strawberry Patch; 1-4:30 p.m., Student Services Building, Student Court.

The screening will take approximately five to six minutes. All personal information will be strictly confidential.

In addition to providing the blood pressure screening, nurses also will distribute test kit packets to identify heme-occult (hidden blood), the only early warning sign or symptom of colon-rectal cancer. The simple test is conducted in the privacy of a person's home.

All University employees are encouraged to participate in the blood pressure screening and heme-occult program.

Employees end CPR training

Twelve University employees have successfully completed a cardio-pulmonary resuscitation training program sponsored by the Personnel Steering Committee.

Conducted by instructors from Blue Cross of Northwest Ohio, the program

involved eight hours of instruction in the CPR technique.

Those who completed the course included Mary Lou Baty, medical technology; Sharon Bishop, custodial services; Philip Buchanan, Student Recreation Center; Meliha Duncan, psychology; Chloe Genson, technical support services; Thomas Gross, computer services; Alex Hann, physics; Lori Morlock, social philosophy and policy center; Linda Ogden, arts and sciences; Vicki Sherman, student organizations; Sheryl Slater, Upward Bound, and Margery Strausbaugh, payroll.

Sports camp registration set

Registration is underway for the 1982 Summer Sports Camp, which includes a week of instruction in any of 12 sports for boys and girls ages 10 to 17.

Now in its eighth year, the Summer Sports Camp is directed by the

University's head coaches. This year's camps and their corresponding dates include: boys' baseball, June 20-25; boys' basketball, July 4-9 or July 11-16; girls' basketball, June 20-25;

football, July 11-16; golf, July 25-30; girls' gymnastics, June 27-July 2, July 4-9 or July 18-23; soccer, July 18-23; girls' softball, June 27-July 2; swimming, June 20-25; diving, June 27-July 2; tennis, June 20-25, June 27-July 2 or July 4-9; volleyball, July 25-30.

Cost of each one-week camp is \$160 for boys and girls who elect to live on campus and \$100 for those who commute each day. The golf camp will cost \$185 for residents and \$115 for commuters.

The Summer Sports Camp emphasizes a full week of activities, including recreational programs and supervised events along with instruction in the specific sports. Further information on the camps, including discounts that are available to faculty and staff, can be obtained by contacting Barb Brown at 372-2401.

Two-day festival to feature new music

Bowling Green's third annual New Music Festival will be held April 23-24 at the Moore Musical Arts Center.

New music by 29 composers from the United States and Europe will be performed during the two-day event. The works, chosen from more than 400 entries and representing a broad spectrum of musical styles, will be performed by University faculty and students.

Concerts are scheduled at 10:30 a.m. and 2:30 p.m. Friday (April 23) in Bryan Recital Hall and at 8 p.m. that day in Kobacker Hall. Concerts also will be presented Saturday at 2:30 p.m. in Bryan Recital Hall and at 8 p.m. in Kobacker Hall.

All festival events are free and open to the public.

This year's featured guest will be composer Joseph Schwanter, a former member of the Eastman School of Music faculty who won a Pulitzer Prize in 1979 for his composition "Aftertones of Infinity."

Two works by Schwanter will be performed during the festival. "From a Dark Millennium," commissioned by the Mid-American Conference Band Directors Association, will be performed by the University's Symphonic Band, directed by Mark S. Kelly, music education, and "Two Poems of Agueda Pizarro" will be presented by soprano Ann Corrigan and pianist Marilyn Shrude.

In addition, Schwanter will discuss contemporary music during a seminar at 3:30 p.m. Friday in Bryan Recital Hall.

During the second day of the festival, a master class in 20th century flute literature will be conducted by Harvey Sollberger of New York City at 9 a.m., and a seminar on marketing music will be presented at 10:30 a.m. in Bryan Recital Hall.

Sollberger, though best known for his performance of contemporary music, also is a serious composer. His "Angel and Stone," commissioned for the 1982 New Music Festival, will be premiered by flutist Judith Bentley and Shrude at Saturday night's concert.

The seminar on marketing music, to be moderated by Donald Wilson, composition and history, will feature a discussion by Roger Grieve of WGTE-FM in Toledo, James Lauth of Composers Recording, Inc., Michele Johns of the music faculty at the University of Michigan, Barbara Zuck of the Columbus Dispatch, and Jeffrey Bishop of Oxford University Press, Inc.

All 29 composers whose music has been selected for performance are expected to attend the festival. Among them will be five Ohio composers, including Brian Bevelander of the Heidelberg College faculty, C. James Sheppard, who teaches at Miami University, and Bowling Green faculty members Burton Beerman, Wallace DePue and Andras Szentkiralyi, composition and history.
